Regardless preeminence in that case includes Authority. It means more than just Authority as you argued. But the Scriptural use indicates the inclusion of Authority in the meaning of the word.

You previously said God hasn't closed down particularly big churches. But several Churches that Jesus wrote to in Asia is certainly extinct by Jesus decree according to his Headship (Kephale). And many protestant churches have died. One can only guess at his intentions aside from his 4D chess moves so to speak.

As for Exousia. It is interesting it is correlated with coercive power like Authority of civil Government. Like the Authority that comes with bearing the sword.
